

## Star Watch: The Amateur Astronomers Guide to Finding, Observing, and Learning about More Than 125 Celestial Objects

By Philip S. Harrington

Wiley (TP). Paperback. Book Condition: New. Paperback. 304 pages. Your Passport to the Universe The night sky is alive with many wonders--distant planets, vast star clusters, glowing nebulae, and expansive galaxies, all waiting to be explored. Let respected astronomy writer Philip Harrington introduce you to the universe in Star Watch, a complete beginners guide to locating, observing, and understanding these celestial objects. Youll start by identifying the surface features of the Moon, the banded cloud tops of Jupiter, the stunning rings of Saturn, and other members of our solar system. Then youll venture out beyond our solar system, where youll learn tips and tricks for finding outstanding deep-sky objects from stars to galaxies, including the entire Messier catalog--a primary goal of every serious beginner. Star Watch features a detailed physical description of each target, including size, distance, and structure, as well as concise directions for locating the objects, handy finder charts, hints on the best times to view each object, and descriptions of what youll really see through a small telescope or binoculars and with the naked eye. Star Watch will transport you to the farthest depths of space--and return you as a well-traveled, experienced stargazer. This item ships from multiple...
