## PSYCHOLOGY OF THE SPOKEN WORD

CreateSpace Independent Publishing Platform. Paperback. Book Condition: New. This item is printed on demand. Paperback. 368 pages. Dimensions: 9.0in. x 6.0in. x 0.8in. From the INTRODUCTION: AFTER years of careful study and due consideration of the subject now presented, I can assure you that it is not the result of conceit, nor with the feeling of knowing it all, that I attempt to present a subject which many have written upon and discussed not a little; but, it is with trepidation, that I submit for your consideration this book, The Psychology of the Spoken Word. I mean by the Psychology of the Spoken Word the process of the minds activity in presenting different forms of literature to the general public; and in dealing with this subject, I find that it entails a rather unusual, broad, and lengthy discussion, by which I have been obliged to treat rather extensively the GRAMMAR OF THE SPOKEN WORD and the FORMS OF POETRY; and in order to carry out the fundamental principles which are sometimes sadly neglected, I have devoted a portion to PROSODY and to FIGURES OF SPEECH. Again I find the old Biblical statement: Whosoever shall not receive the kingdom of God as a little child shall in no wise enter therein, especially applicable here; for neither can you enter the kingdom of the Spoken Word, except you become as a little child. And I therefore have devoted another portion to the matter of child poems and Mother Goose melodies. In the presentation of the GRAMMAR OF THE SPOKEN WORD, I invite your attention to the first step. This item ships from La Vergne, TN. Paperback.
