Which religion is yours You dont have one Thats strange, because in the hospital Emergency Room, everyone seems to vocalize a religion of some sort, want to or not. The typical response to an acute injury or illness is God help me! And they cant keep from saying this. Each religion also seems to involve this basic question: Is there a life after death And to attain this good life when you die seems to form the basic objective of most religions. But how do you know that you have the right religion In this wonderful Age of Resuscitation in which we live, post-death experiences occur in most all faiths, races and cultures. In fact, about twenty percent of those resuscitated from clinical death have had an after-death experience so real that it turns their life upside-down. Not only are they willing to bet their life on this revelation, but the very sequence of events are comparable-something that drugs, chemicals, injuries, and infections cannot do or duplicate. For contrast, lets compare the death experience for the main groups of religions, for death, as with life, is patiently waiting for each of us to discover this answer for ourselves.
